### PROFILE

My journey started in 2011 as a 2nd camera assistant, working for 3 local rental houses as well as a DIT. After stepping up in 2014 to 1st AC/ Focus Puller until today, I have worked on various formats that I enjoyed: starting with TVCs, Music Videos, Series, to Feature films. My aim is to take away the technical worries of the DOPs and Cinematographers, allowing them to bring their image to life. I am a team leader; I take pride in maintaining and organizing the camera department by following professional protocol.
